About NAEMSE

The National Association of EMS Educators (NAEMSE) was established in order to provide a forum for EMS educators to share insight and information concerning all aspects of EMS education. The mission of the Association is to inspire excellence in EMS education and life long learning.

The NAEMSE membership is comprised of individuals who are involved in and/or interested in the education of EMS personnel. They are involved in the planning, supervision, teaching and clinical practice of out-of-hospital emergency medical care. EMS educators are at the forefront of EMS since they provide the training necessary for the field provider.

Partnering with supporters from industry, academia, government agencies, non-profit organizations and individuals, allows NAEMSE to accomplish more than any one organization could do alone. Through our corporate partnerships our efforts and results have been dramatically enriched. The stronger our partnerships become, the more progress is made in fulfillment of our mission. Please join NAEMSE and its many corporate partners in supporting excellence in EMS education and lifelong learning.

NAEMSE has three levels of corporate partnerships *Platinum*, *Gold* and *Silver*. Each partnership has benefits that provide advertising and marketing to the NAEMSE members directly. To learn more about the NAEMSE corporate partner program please contact the NAEMSE office at joann.freel@naemse.org.
